# International Foundation Year

Offered by the Northern Consortium of UK Universities

# Northern Consortium Pre-University Courses

## How can I get direct entry to a UK university?

Do the Brookhouse one-year Foundation Course!

Success on this International Foundation Year guarantees you direct entry to one of 11 prestigious Northern English universities. This intensive programme bridges the gap between local high school qualifications (such as the KCSE in Kenya) and university in the UK. It is also an excellent pathway to university for those who wish to improve on their British curriculum A-level results.

## Are Foundation Year students at a disadvantage? No definitely not.

The Northern Consortium is proud of the way the Foundation Year prepares you for higher study. The Foundation Year has been offered in Kenya and in other countries worldwide for over 10 years. During this time some 7,000 students have benefitted from NCUK Pre-university programmes. Moreover, NCUK Foundation Year students have been shown to perform above the average of all international students in NCUK Partner Universities.

## Here is what former students think

Idris Ajia who is now studying Engineering wrote: "participating in the IFY programme was a great opportunity for me to develop the skills and knowledge needed to gain admission to one of the world's most prestigious universities. Not only did it expose me to independent learning, I was also surrounded by excellent teachers, whose respective methods of teaching do not differ from the ones I have found at the university".

Idris Ajia

Velma Gendo

Velma Gendo who is now studying Law wrote: "the best thing I liked about the IFY programme was the good student to teacher ratio, which improved my understanding, due to the concentrated efforts of the teachers. The IFY programme makes it very easy to adapt to studying in the UK".

## How do I apply for university?

It could not be easier

You get expert advice from Brookhouse staff and individual counselling from visiting lecturers from NCUK partner universities. Brookhouse handles your application which is prioritised by the NCUK, and admission staff from partner universities help you make choices.

## When do I start and finish?

For Kenyan 8.4.4 system students, you start immediately your KCSE exams finish in November and commence university the following September, having passed your final Foundation Year examinations in July.

## Are you ready to learn to excel? ...and want to go to university in the UK?

Then find out more about the International Foundation Year by contacting the Foundation Programme Director who will be able to give you more detailed information about the courses, admission, entry requirements and fees.
